

## AEB-Rear Test Report

*The test was performed at Hotel Tannishus Sunday 24/9-2023 at the Tannistest event for COTY-Jurors. Obstacle: Playing Child Target (PCT/Messring).*

The following 11 cars are equipped with technology that make it possible for the car to perform an automatic full brake when reversing against the fixed obstacle. Test speed: appr. 5 km/h. Four other cars did not brake – some of them because they didn't have this system installed (see below). Seven other cars were not released from the Tannistest for this rear-AEB-Test.

### **BMW i5**
