

43rd year · Issue 6 · Thursday, 30. September 2021

This Tannistest has been a success! Good weather – except Monday afternoon - nice cars, fine tests and excellent photo sessions.

And we managed to have two interesting interview sessions too. So, we got what we came for, and I can conclude, it has been great to join Tannistest whatever you are a journalist or a representative of the industry.

As the organizer of Tannistest I will use the opportunity to thank the car brands for their strong commitment and support by bringing both

cars and experts to the Tannistest. Thanks to all of you for the visit and I wish you a safe journey back home.

Welcome back next year!

*On behalf of the Nordic jury group
Søren W. Rasmussen*

See you in 2022!

The Tannistest will be back at almost the same time next year – from 24th to 29th of September – some two weeks before the Paris Motor Show.

Weather today

19.30 Dinner

Menu

Starter

Fish soup with salmon soufflé and herbs

Main course

Stuffed pork tenderloin with sauce calvados and greens

Dessert

Mocca roulade with fresh fruits and vanilla ice cream

Mr. Tannistest still on the road

Rogers Sögaard, who founded the Tannistest 44 years ago and lives in nearby Skagen, is still attending the event on a leisure basis.

This year he arrived in his Kona EV, the third electric Hyundai in about the same number of years. The current Kona has clocked 10.000 km in one year on an average of just 147 Wh pr. km.

But Mr. Sögaard, who recently turned 93, will change car again soon – well, as soon as Hyundai is able to deliver his already delayed Ioniq 5. Same color as the test car behind him. And top version, of course.
